SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper level trough over Northern California will weaken over the next several days and result in a warming trend across the interior. Coastal areas will continue to see night and morning stratus as thermal low pressure strengthens near the coast and northerly winds increase offshore.

Medford Weather:

The upper level trough will shift eastern into the Northern Rockies and Great Basin this morning allowing high pressure ridging over the eastern Pacific Ocean to nudge into the Pacific Northwest. For inland areas, today is expected to be the first day with no measurable precipitation in the forecast area since July 2nd. A wave of summer heat will build across the area for the rest of the week through the weekend, with a cool down anticipated next week. An upper level low moving into the Northern Rockies Friday will bring some threat of showers and thunderstorms to southeastern sections of the area Friday through Sunday.

Reno Weather:

A slow warming trend this week will bring afternoon temperatures to near normal by Friday. A low pressure system from the Pacific Northwest increases the chances for thunderstorms starting Friday, and there is potential for a cooler and wetter weather pattern for the start of next week.

San Francisco Weather:

Aside from patchy coastal drizzle in the overnight and early morning hours, dry weather conditions will prevail across the region through late week. Cooler temperatures return for the weekend along with a slight chance of precipitation Sunday into Monday as mid-level moisture approaches from Southern California.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Warm and dry through Friday. Cooler weather expected this weekend with precipitation possible early next week.

Hanford Weather:

A few isolated afternoon showers and thunderstorms will be possible along the Sierra Crest through Friday. Otherwise, mostly sunny skies will prevail with a slight warming trend. There is potential for tropical moisture arriving over the weekend and the threat of showers and thunderstorms.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Areas of night through morning low clouds and fog will continue through the week. Temperatures will be around normal and will not change much from day to day. Monsoonal moisture will bring a slight chance of thunderstorms to the area this weekend, along with warmer temperatures.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

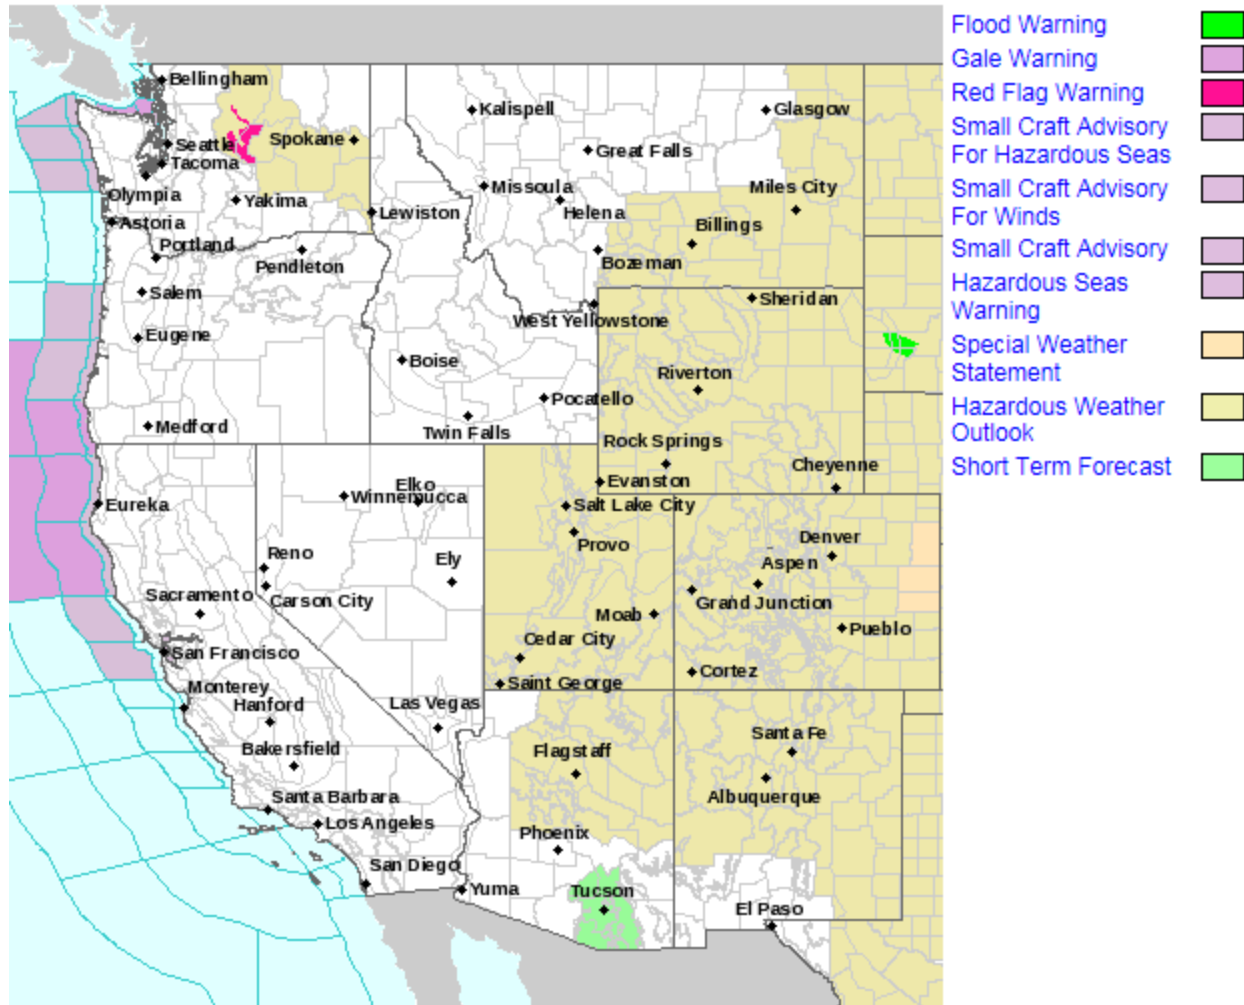

Seasonally cool weather will prevail across Southern California through Thursday under a low pressure trough aloft. Low clouds will develop each night and move inland before burning off by late morning, and gusty westerly winds will develop late each day through late night over the mountains and deserts. The region will become more humid into the weekend as monsoonal moisture increases from the south, along with a chance of showers and thunderstorms, especially over the mountains and deserts.

Southeast California Weather:

Mostly dry conditions will continue for the lower desert elevations with afternoon showers. By Friday, moisture levels will ramp up significantly and bring in cloudiness and cooler temperatures, along with a good chance for rain showers and thunderstorms over the weekend.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Regions (Inland, Coastal, Southern) will consolidate and have one collective OA drought call Monday's at 1100 hours beginning 07/06/15 facilitated by the SOC. Cal OES Director Mark Ghilarducci will hold a statewide OA drought call on 06/29/15 at 1000 hours.

Disaster Mitigation (G393)

This program introduces the Emergency Manager to the basic concepts of mitigation as part of a comprehensive Emergency Management program. The course will present information on the specific grant programs, the State Hazard Mitigation Plan, and the relationship between the federal, state and local government in mitigation.

The core curriculum includes the following subjects:

- Mitigation Plan issues in natural and human-caused disasters
- The development of the Local Hazard Mitigation Plan (LHMP)
- The Hazard Mitigation Grant Program (HMGP)
- The Hazard Analysis Process
- The State of California Hazard Mitigation Plan
- The Role of FEMA in Mitigation
- The Role of the State of California in Mitigation

Class Number	Dates	Location
G393-6-15	29-31 Jul 2015	Glendale
G393-2-15	25-27 Aug 2015	Santa Clara County
G393-3-15	15-17 Sep 2015	Sacramento County
G393-4-15	13-15 Oct 2015	Orange County
G393-7-15	27-29 Oct 2015	Fresno
G393-5-15	17-19 Nov 2015	San Diego

Register: [Here](#)

NOTE: This course is eligible for the use of Homeland Security Grant Program SHSP, UASI, LETPP. Homeland Security Grant funds may cover the cost of Registration, Travel, Lodging and Per Diem only.
